

Evesham Gold is a classic porcelain pattern developed in 1961, depicting the autumnal fruits of the Vale of Evesham with the elegance of gold banding. It is a fully co-ordinated range of tableware, cookware and serving items made from high quality porcelain. With the emphasis on practicality and versatility, the items are freezer safe, oven safe and now have the additional benefit of the gold detailing being microwave safe. Evesham Gold is the perfect choice for the enthusiast in the kitchen or simply to create a good impression with maximum ease, whatever the occasion.
