## *Shaping the* **FUTURE**

At Richardson Sheffield, our vision has seen us shape the global knife market for over 170 years. The knives of tomorrow stay true to the heritage of this innovative British brand, but deliver something truly unique to the market place. R:Vision pays homage to the classic rivet handled knife style, but has been beautifully evolved to create a luxury, pioneering and contemporary design that delivers exceptional performance.

# Neo ネオ

*Japanese style and western innovation.*

## Neo ネオ

### *A unique* **FUSION**

Richardson Sheffield are a bold, British brand with over 170 years of unparalleled knife manufacturing expertise. This next generation of knives from Richardson Sheffield has fused together the finest quality materials and 21st Century technology, with the cool aesthetics of modern Japanese style. The result, a truly unique knife with a totally desirable design. Unmistakably influenced by Japanese architecture, Neo has been meticulously honed to create real simplicity of line and a strong new design statement.

# Kyu 弓

*A graceful  
yet powerful  
form.*

## Kyu 弓

### Japanese STYLE

The next generation of knives from Richardson Sheffield is taking Japanese design forward in a bold new direction. Kyu is a fluid and amorphic shape which echoes the traditional Japanese bow with its graceful, yet powerful form. A truly unique knife which harnesses the strength and durability of its 21st Century materials, but still embraces the spirit of Japanese culture in an exciting and innovative new design.
